Special Abilities

XP:

- Quick Study** – When you Study to identify or exploit weakness during a mission, you get +1 effect level.
- Whiz** – Push yourself to do one of the following: *completely ignore distractions – disrupt wireless communications*
- Analyst** – During downtime, you get two ticks to distribute among any long term project clocks that involve investigation, inventing, or crafting.
- Digital ward** – When you Wreck a computer or network it becomes either anathema or enticing to viruses and hackers.
- White noise generator** – You may interfere with surveillance tech, becoming shadowy on recordings for a few moments. Take 2 stress when you activate this ability, plus one stress for each extra feature. *It lasts for a few minutes – you are invisible instead of shadowy – it affects human senses as well*
- Multitasker** – You can push yourself to do one of the following: *control a small group of rigged machines – perform non-VR actions while in VR.*
- Search Protocol** – You have access to the best tech expertise. Take +1d to gather information about technology.

Mark XP if you address a challenge with social engineering or tech.
